the amazing information and startling knowledge that we have furnished them from time to time in our various examination papers. These bits of wisdom may be new to the teachers, but if they see fit, they can use them for the enlightenment of the classes to come after us.

As we have

2nd. Our Senior wisdom and dignity. May they uphold it forever with seriousness and gravity in spite of their natural lightmindedness and irresponsibility.

# CLASS PROPHECY

Seniors, it is a well known saying that "coming events cast their shadows before." Therefore, it is not as if I am predicting the future, but I am showing you the shadows of the future and you can choose your own path. Your future course of action will be.

Having for some time been possessed with a strong ambition for the brilliant career of a detective, I have, as a means of preparation, kept a sharp eye on all of you, when perhaps you were unaware you were being observed. Your future course of action will be determined by your own inclinations and inclinations will lead you in the years that are to come.

Seeing so clearly what is in store for you and feeling that you long to know what lies before you in order that you may be prepared for it, I have taken time to put down in writing your future as it appears to me.

As I look into the land of the future, I can see your beloved President, Betty Craine, has become one of the most famous actresses in the world. She is now starring in several of the largest cities in the United States and will continue to Hollywood where a moving picture will be made of them. While in Hollywood Coach Craine and her team will be entertained by her old classmate, Artist Dora Lea Jones. Dora Lea has been an artist on Walt Disney's staff for several years. Besides drawing for the Disney company, she has also been a successful artist in her own right.

As I look again, I see inside a large circus tent a black haired lady dressed in brilliant red slacks. This is Wilma Kline, who has become a famous animal trainer. She has married an animal trainer and is equal to her husband in the art of handling animals. Wilma is the only one in the world who can put these animals through their paces.

I see a copy of the *Chicago Tribune* dated 1964 which carries the headline "Mystery Case Solved and Ten of Gang Jailed." The article says the detective given credit for the solution is none other than Betty Sawyer. She has become a famous detective and has solved many cases.

Young Mr. Harold Barton, who has become a famous businessman, has married Betty Sawyer. He has become a very successful businessman and has many offices in the city.

I see a copy of the *Chicago Tribune* dated 1964 which carries the headline "Mystery Case Solved and Ten of Gang Jailed." The article says the detective given credit for the solution is none other than Betty Sawyer. She has become a famous detective and has solved many cases.

As I look into the future once more, I see Betty Sawyer in a trim black skirt and a crisp white blouse sitting in the private office of a famous businessman. She is his efficient secretary and, to tell the truth, many people say she is the brains of the business.

I see a copy of the *Chicago Tribune* dated 1964 which carries the headline "Mystery Case Solved and Ten of Gang Jailed." The article says the detective given credit for the solution is none other than Betty Sawyer. She has become a famous detective and has solved many cases.

As you know, Harold Barton was always "up in the air" in his high school days, this is really where he is now. He has become a famous businessman and has many offices in the city.

I see only two girls of the class of 1946 have chosen to be old fashioned housewives. Lillie Mae McKee is one, and she is noted in her community for her neat housekeeping and her good cake baking. Thelma McKeen is the other, and she is noted in her community for her neat housekeeping and her good cake baking.

I see a copy of the *Chicago Tribune* dated 1964 which carries the headline "Mystery Case Solved and Ten of Gang Jailed." The article says the detective given credit for the solution is none other than Betty Sawyer. She has become a famous detective and has solved many cases.

I see a copy of the *Chicago Tribune* dated 1964 which carries the headline "Mystery Case Solved and Ten of Gang Jailed." The article says the detective given credit for the solution is none other than Betty Sawyer. She has become a famous detective and has solved many cases.

Doris Simpson has succeeded in landing the very wealthy bachelor who has come to her town. His past is not all that bright, but he is now very happy by making her allowance all that can be desired.

To and behold, can this be two doctors from the class of 1946? Loren Brown is an old fashioned family physician who is liked by the mothers especially, because when the baby refuses to go to sleep Dr. Brown is called in. If his medicine doesn't have a soothing effect, he gets results by singing to the baby in his hum-drum voice. Carl Brown is a famous doctor and has many offices in the city.

I see Virginia Long has inherited from a wealthy uncle, a chain of department stores and they are being operated very successfully. She has many offices in the city. Grace Lyon is Virginia's private secretary, and Marcelle Weeks is the most attractive model in the whole chain of stores. Nell Spencer, who has just completed her business education, has been named by Virginia as assistant manager of the stores. There are many more who are involved in the operation of the stores, but I have not time to mention them all.

The voice of that well known comedienne you hear over the radio on the "Saturday Night Special" is that of Virginia Long. She has become a famous comedienne and has many offices in the city.

I see a copy of the *Chicago Tribune* dated 1964 which carries the headline "Mystery Case Solved and Ten of Gang Jailed." The article says the detective given credit for the solution is none other than Betty Sawyer. She has become a famous detective and has solved many cases.

In the city of Chicago, the corner of Main Street I see a man sitting at his typewriter. Durand Coats, piled high on his desk are letters, some of which are from the city of Chicago. He is trying to collect for good money some of the things that are being sold in the city, such as chewing gum to washing machines.

Seniors, since I have revealed to you your future as I see it, I hope each of you will play faithfully your part so you will be the glorious success I see you will be.
